

QUALITY FORUM

DIGGING UP THE ROOT (CAUSE)

- **Why does your company have persistent, reoccurring problems?**
- **Is the plan to stick a band-aid on the problem and keep running?**
- **Does Root Cause Analysis sound too time consuming and difficult that you think it will not work for the types of problems your company has?**

If these are questions you come across in your job, please consider attending our latest meeting of the Quality Networking Forum. Several local industries have already attended our earlier sessions and gained valuable information. The Alabama Technology Network (ATN) will have a short presentation to discuss Root Cause Analysis and offer real world examples. After the presentation, the floor will be open for sharing and networking.

- **Time: 9:00–11:00 a.m.**
- **Date: December 9, 2009**
- **Location: Dining Room, Workforce Development Building, Northeast Alabama Community College**

▶ ▶ ▶ Please RSVP by Friday, December 4th if you plan to attend.

This event is made possible in partnership with:
